STOPit Honored in Risk Mitigation Award

At the CAJPA Conference in Lake Tahoe in September, we were with Great American Insurance Group as they presented its 2017 Public Sector Risk Mitigation Award to Self-Insured Schools of California (SISC).

Great American presented this award to SISC chief executive officer Nick Kouklis and director Robert Kretzmer because of its members' adoption

and widespread implementation of [STOPit](#).

Great American teamed up with STOPit to support the risk mitigation efforts of its public sector pool clients and to provide a safer environment for communities and schools.

"We are pleased to receive this recognition from Great American," says Robert Kretzmer, director of SISC II, the Property & Liability

Division of SISC. "The STOPit platform has been an effective tool--one that serves to improve our schools' social environments."

Congratulations SISC!

Fighting the Opioid Crisis in Somerset County with STOPit

County wants information from citizens:

- 330,000 citizens in Somerset County have access to STOPit
- Anonymous reports are sent to police dispatch and detectives
- Launched through local press communication, and community outreach
- Somerset also added a custom order of Bracelets (see last page)

There are now [nearly 100 deaths a day from opioid use in the U.S.](#), running from tiny New England suburbs to the farm country of California. Opioids could [kill nearly 500,000 Americans](#) in the next decade. More than [one out of three](#) Americans used a [prescription opioid painkiller](#) in 2015.

The STOPit mobile reporting App is now available to all community members across Somerset County New Jersey, and county officials have

access to DOCUMENTit, the robust case management system and communication platform. Michael H. Robertson, Somerset County Prosecutor and John Fodor, Chief of Detectives are heading up the program for Somerset.

"I am confident we are on the right path, not only to raise awareness of the dangers associated with heroin and opioid abuse, but also to assist the population in helping others," stated Michael H. Robertson, Somerset

County Prosecutor. "We need more eyes on the ground to help deal with this epidemic and with everyone now having access to the STOPit app, we'll continue to save even more lives."

Somerset Strong!

Texas Passes David’s Law

In January 2016, young David Molak committed suicide after being relentlessly bullied through social media. Unfortunately, this is becoming a common occurrence in every US state.

David’s parents had seen enough and they rallied local and legislative support. In June of this year the Texas Senate passed “David’s Law”

unanimously, and Governor Allen signed it in to law.

Effective September 1, all Public School districts in Texas need an anonymous reporting solution as part of their anti-bullying program. STOPit aligns very well to David’s Law, and the solution is now deployed in over 100 districts across the state.

It’s been a busy fall as we launch numerous schools

every day – and it’s great to hear the positive result. Customers are capturing an average of 1.18 reports per week per school in Texas. Texas students are upstanders!

One of many press stories in Texas;

Big Spring ISD launches anti-bullying app

Melissa Straub Leads CyberSafe Assemblies

"Thank you so much for coming to our school. I can honestly say you saved my friend's life with your message!"
- G.A., 8th grade student in KS

Melissa Straub, CEO of High Impact Youth Training, joins the STOPit team to lead CyberSafe Assemblies. Melissa is an expert on today’s issues of bullying and cyberbullying and has excellent advice for

school administrators and parents to help keep ahead of current issues.

Melissa is a highly experienced and credentialed professional within the investigative and consulting arena and is a licensed Private Detective in the State of New Jersey. She holds degrees in Political Science, Pre Law, and Counseling, and has her

New Jersey State School Counselor’s certification. Combined with her experience this gives her a deep understanding of current social justice and child advocacy issues.

Welcome Melissa!

STOPit Messenger Release October 2017

You Spoke and We Listened: Redesigned Messenger Workflow and Enhanced Home & Incident Pages are Here!

The STOPit team is proud to announce another innovative release. The Mobile Apps are also

updated for the end users.

Please refer to the Product Update message sent to learn more about great innovations including; incident descriptions, icons for unread messages, new sorting, enhanced image

management, time of incident field, cleaner connection of incidents and messages, and more.

New STOPit Headquarters in New Jersey’s High Tech Hub

Bell Labs was home to many ingenious minds that contributed to some of the greatest technological advancements of the twentieth century. After 8 Nobel Prizes, Bell was broken up into smaller companies and their old home Bell Labs has now become Bell Works.

Bell Works is a multi-purpose working space, currently experiencing a renaissance as a business

incubator for high-tech startup companies. Recognized as an innovative leader, the complex was listed on the National Register of Historic Places in 2017. STOPit is proud to house our HQ in this historic building.

Come by for a visit! We are 1 hour from NYC, 90 minutes from Philadelphia, and 20 minutes from the Jersey Shore.

Bracelets! Lower Prices & Custom Orders

We have found a new supplier who is faster, allows custom orders and (you have got to love this) less expensive!

Bracelets are light, and are a great way to promote the STOPit

program in your school, school, or organization.

Special orders available complete with your Access Code right on the bracelet. They are not only a reminder to be an Upstander – but it’s a reminder to your friends on how to access STOPit for your school or organization. Or in Somerset County’s case –

how all 330,000 citizens can access the App!

Contact STOPit for your package, available in multiples of 100, 500, or 1,000.

“STOPit, you are truly making a difference in the lives of students!”

Tip of the Month: Resources to Help

At STOPit we are not just a technology company; we are motivated to help reduce risk and improve behavior. But let’s face it, there is always going to be some bad behavior out there. To address this, we provide helpful resources to our DOCUMENTit

Administrators. We will continue to add to the resource library – keep an eye out!

In the meantime, don’t forget our helpful FAQs under the Support area of DOCUMENTit. Click on Support on the top right.

About Our Organization...

STOPit is transforming the way the world prevents inappropriate behavior. Everyone from business to government to schools, depends upon the individuals within a community to speak up in order to keep people safe and mitigate risk. But legacy reporting systems – paper, hotlines, even web reporting – no longer

meet the needs of our modern connected society. STOPit allows you to meet people where they are and how they willing to speak up.
