## STOPit Honored Again! Named Top 10 Mobile Application for 2017

### IN THIS ISSUE:

- STOPit Honored Again 1
- STOPit Milestones 1
- Workplace Launch 2
- New Release 2
- Customer Quotes 2
- STOPit Employee Star 2
- CyberSafe Rallies 3
- Tip of the Month 3
- About STOPit 4

Insurance CIO Outlook reviewed the market of applications available for companies to reduce their risk to claims using a mobile application. STOPit is pleased to have been awarded as a "Top 10 Mobile Application and Technology Solution Provider, 2017"!

"Schools and companies are bombarded with technology providers and it is an honor to have been contacted by CIO

Outlook and selected for this leadership award. We are so proud to be seen as a Top 10 application for making a change" commented Neil Hooper, STOPit CRO.

Please see the review article in the December 2017 edition of the online magazine at [CIOOutlook.com](http://CIOOutlook.com)

## STOPit Thanks our Customer Community for Recent Milestones!

### STOPit thanks our customers:

- Thousands of schools
- Active customers in 7 countries
- 4 languages
- Experiences are driving enhancements

We hit some milestones in 2017 and we want to thank our customer community! Your activity informs STOPit development and features to keep making your job easier.

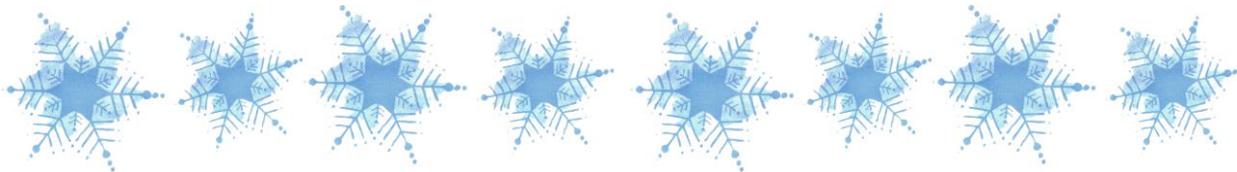

Milestones reached;

- 1,000,000 active subscribers
- 40,000<sup>th</sup> reported incident addressed
- 20<sup>th</sup> Insurance provider offering STOPit

- 30,000<sup>th</sup> Messenger conversation continually improve their environments. Your activity helps build a better product!
- First Australia and first New Zealand customers
- First Public Safety initiative, First workplace initiatives, First government initiatives

We use STOPit data and trends to help us understand and prioritize product enhancements that will help our customers as they

## Workplace Harassment meets its match

The stories don't seem to end. And we are only hearing the tip of the iceberg.

There are many names in the news and the list grows every week. From Harvey Weinstein through Al Franken... and countless others.

I am confident that many agree with STOPit and our customers such as the Peoples Improv Theater –

let's get information quickly from the security of a mobile report and address concerns before names are added to lists. Let's stop sexual harassment together.

We are pleased to have dozens of new enterprise customers join the STOPit family over the past 90 days as the STOPit

platform continues to expand.

People's Improv joins a number of Colleges we have also just launched as STOPit is used to enable adult Upstanders.

## Mobile goes Web – and Web goes Mobile!

Being able to address issues on the go is a real time saver!

Ever want to just allow people to report incidents from a laptop?

How about conveniently responding to an incident from a mobile phone?

They are both now possible as the STOPit App is now available as an integrated web form experience, and DOCUMENTit is now available on a Mobile Web experience. It's simple – just go to DOCUMENTit from your Apple or Android phone and DOCUMENTit Mobile Web now works seamlessly!

We had a special request to be able to send Notifications from DOCUMENTit Mobile Web, so that is now available as of Jan 31, 2018.

## STOPit Customer Quotes!

**We are so pleased to be able to share great news from our installed base!**

We are honored to have added over 40 customer led press releases this school year. Please visit the [Press Page](#) of our web site.

There are some incredible stories of success out there and they are ALL great stories!

Here are some of our favorites:

"Within the first day of the program going live, we received a couple of reports and were able to investigate and resolve them."

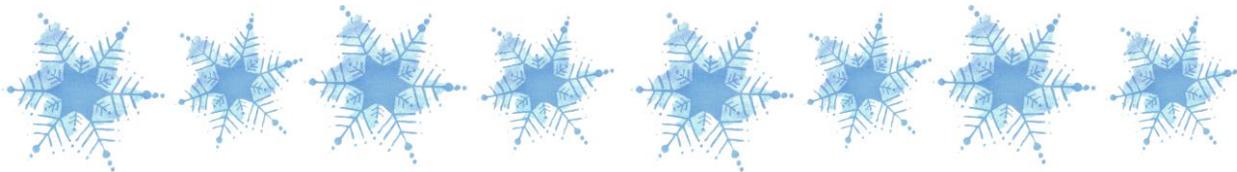

**David Ramsey  
Lindale High School**

"People are going to think twice before they do stuff."

**Erin Candalora  
St. Aloysius School**

"Some students don't feel comfortable talking to me or one of the officials, and this gives them a way to do that, and an easy way for us to follow-up on the reports."

**Jim Green  
Industrial ISD**

## STOPit Employee Profile – Your Customer Success Star Teresa Reuter

Get to know STOPit!

In this release we honor our Customer Success Leader – Teresa Reuter. Teresa works tirelessly with a full commitment to providing the highest possible standards of customer service and support. She is our lead “new customer” trainer and can help get just about anyone on STOPit in 15 minutes or less, but as she will tell you –

please take your time and learn even more!

She has wonderful communication and interpersonal skills and loves helping people on our solution. Teresa has family members in education and also has great insight into the unique situations presented to unionized workers in public entities.

Get to know Teresa – you won’t regret it!

## Reminder: Schedule your Cyberbullying Education Assembly!

Programs are in place, but kids often need to be reminded of the dangers of the online world. A great reminder can be a 50 minute age-specific CyberSafe Assembly – contact us to book your presentations!

### Options Available

- STOPit Custom Assemblies and Training
- STOPit Cybersafe for Students Grades K-5
- STOPit Cybersafe for Students Grades 6-8
- STOPit Cybersafe for Students Grades 9-12
- STOPit Cybersafe for Parents

Districts can request up to 3 Assemblies per day. Assemblies need to be booked in advance so please contact us now if you would like to reserve yours.

[sales@stopitsolutions.com](mailto:sales@stopitsolutions.com)

“STOPit, you are truly making a difference in the lives of students!”

## Tip of the Month: Type Ahead

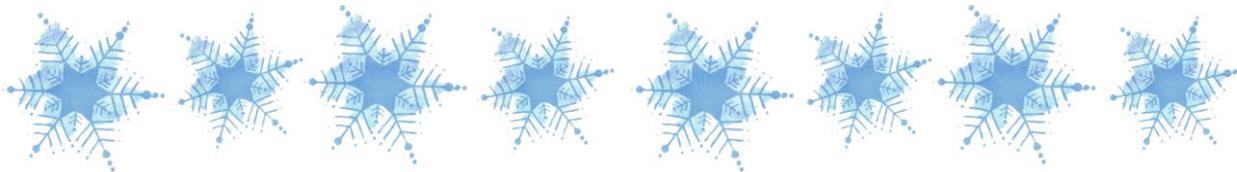

Personally, I am getting older and having a hard time remembering how to spell everyone’s name. But I can usually remember something. At STOPit, if a name exists in Assign, Target, or Perpetrator – just start typing and the system will

find the name for you as long as you get the first letter correct. Auto-searching works on first and last names. Typing “J” finds both “Jane Doe” and “Dave Johnson”

It’s really helpful!

Don’t forget our helpful FAQs under the Support area of DOCUMENTit. Click on Support on the top right.

## About Our Organization...

STOPit is transforming the way the world prevents inappropriate behavior. Everyone from business to government to education depend upon the individuals within their community to speak up in order to keep people safe and mitigate risk. But legacy reporting systems – paper, hotlines, even web reporting – no longer

meet the needs of our modern connected society. STOPit allows you to meet people where they are and how they are willing to speak up.
