STOPit SEL CENTER™

powered by Suite360

Share mental health content with students easily through the STOPit platform

STOPit's SEL Center helps administrators meet their goals to protect and promote **MENTAL HEALTH** and emotional resiliency for their students.

It's an easy to use, digital resource that successfully engages today's interactive, hands-on learners.

STOPit Solutions SEL Center, powered by Suite 360, is a digital character development and behavioral intervention resource.

An individualized learning experience designed to complement your school or district's co-curricular mental health programs. Proactively address issues that threaten the safety and welfare of students and staff.

> The SEL content library gives both staff and students access to accurate and timely information right through the STOPit app - and makes the STOPit platform truly different from standard tip apps. The SEL content library has increased our confidence that we can properly respond to our STOPit users.
